OFFICE OF ADMINISTRATION OVERVIEW

The Office of Administration (OA) is the state's service and administrative control agency. Created by the General Assembly on January 15, 1973, it combines and coordinates the central management functions of state government. OA's responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the commissioner of administration who is appointed by the governor with the advice and consent of the Senate. The commissioner appoints the directors of the divisions who are responsible to him. The OA divisions are: **Accounting**-maintains all financial records for state appropriations and funds, processes payments, controls production of warrants, and distributes checks; **Budget and Planning**- analyzes state government programs and provides recommendations and information to the Governor, General Assembly, and state agencies regarding fiscal and other policies; **Facilities Management, Design and Construction**- provides project management and construction administration for capital improvement projects; operates, maintains and manages state-owned office buildings and other structures, and is responsible for acquiring and managing leased space; **General Services**-provides agencies with a variety of support services such as printing, mail services, fleet management, vehicle maintenance, and administration of the legal expense fund and the state employee workers' compensation program; **Information Technology Services**- manages state information technology resources; provides mainframe computer processing services through the State Data Center; manages the State's telecommunication services; and provides Internet services, IT education services, and network support to all state agencies; **Personnel**- provides central human resource (HR) management programs and services to all executive branch departments in compliance with the State Personnel Law; and **Purchasing and Materials Management**- centralizes procurement to save money by purchasing supplies, materials, and services in larger quantities and encourages competitive bidding and awards on all contracts; maintains responsibility for the statewide in-house recycling program; transfers and/or disposes of state agencies' surplus property to maximize state resources; and administers the Federal Surplus Property Program.

A number of boards and commissions' budgets are also assigned to OA: Administrative Hearing Commission; Office of Equal Opportunity; Martin Luther King, Jr. Celebration Commission; Office of Child Advocate; Children's Trust Fund; Governor's Council on Disability; Missouri Public Entity Risk Management (MOPERM); and the Missouri Ethics Commission. The Board of Fund Commissioners public debt budget request (House Bill 1) appears in a separate book.

The Office of Administration administers a number of debt and related debt obligations appropriations, various pass-through distributions from the federal government, and statutory payments and reimbursements to political subdivisions throughout the State.

Appropriations for all State employee benefits such as social security, retirement, and health insurance, are appropriated centrally to the Office of Administration in House Bill 5, and budget requests for those benefits appear in a separate book entitled "Employee Benefits."

	E&E	\$88,828	25%	\$22,207

This represents the same flexibility percentage authorized in FY 2011.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$48,965	Unknown	Unknown

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
To allow payment of FY 2010 E&E obligations.	This will allow the division the flexibility to pay accrued time when someone leaves the division, replace critical equipment, or make other one-time unforeseen needed expenditures. We do not know ahead of time which of these will be needed.

The State of Missouri will be challenged to have an adequate MBE/WBE program without a Disparity Study. The Disparity Study gives the executive branch an opportunity to maintain a program that benefits both minorities and women in participating in the economic vibrancy of the Missouri economy through contracting opportunities. The last study in Missouri was done in the mid-1990s. The courts are beginning to strike down programs whose studies are becoming stale due to lapse in time of new information proving discrimination in the contracting arena. We will also need to examine ways to increase diversity throughout state government. The Disparity Study will be sponsored by MODOT and the Office of Administration.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Other states have obtained disparity studies for their states. The amounts paid varied from \$600,000 - \$1,300,000 based on the specifications of each study. Some studies only analyzed the transportation or the procurement component of their process; these studies are priced at the lower range. Others analyzed the whole process which includes Transportation, Procurement and Construction together; these studies are priced at the higher range.

Below are the states surveyed, and the cost of their studies:

North Carolina	\$750,000	Indiana	\$1,300,000
California DOT	\$1,100,000	Hawaii DOT	\$800,000 (not final amount, it is still ongoing)

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an effectiveness measure.

The State of Missouri will be in the position to establish goals for MBE/WBE programs that could withstand a legal challenge.

A disparity study would provide best management practices for procurement in the State of Missouri. These practices can be followed by all business in the State of Missouri.

A Disparity Study would provide the State of Missouri with improvements on its certification procedures.

6c. Provide the number of clients/individuals served, if applicable.

The Office of Equal Opportunity currently has more than 1,500 MBE/WBE vendors listed in their directory, however this number does not represent the whole number of MBE/WBE vendors in the State of Missouri. The Disparity Study has the potential to benefit all MBE/WBE vendors, by setting best management practices that could be followed by all business in Missouri.

6b. Provide an efficiency measure.

It would accurately measure the underutilization of MBE/WBE vendors in the procurement area at the State of Missouri.

It would provide an accurate analysis of capacity and bonding of MBE/WBE vendors in the State of Missouri.

Recommendations to the tracking, monitoring, and reporting of contractual obligations as far as the utilization of MBE/WBE for Prime Contractors and Executive Branch Agencies.

6d. Provide a customer satisfaction measure, if available.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

To issue a competitive bid to perform a disparity study by a qualified vendor based on the following:

- 1). To continue the minority and women owned business program in the State of Missouri
- 2). To establish monitoring, tracking and reporting procedures to strengthen the minority and women-owned business participation in the State of Missouri,
- 3). To establish procedures to allow more inclusion in the bid process for goods and services contracts and construction in conjunction with FMDC and DPMM.
- 4). To establish procedures to allow more inclusion of minority and women-owned business in the discretionary procurement of goods and services in conjunction with the Executive branch departments.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 30530	DEPARTMENT: OFFICE OF ADMINISTRATION
BUDGET UNIT NAME: BUDGET & PLANNING - Operating	DIVISION: BUDGET & PLANNING

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

25% of PS and E&E budgeted amount. This totals \$390,890 PS and \$18,806 EE. B&P received 25% flexibility in Fiscal Year 2011. This will allow the division the flexibility to pay accrued time when someone leaves the division, replace critical equipment, and meet basic training needs for analysts and supervisors. We do not know ahead of time which of these will be needed. Previous years' core cuts have limited the division's ability to pay these ongoing liabilities.

2. CORE DESCRIPTION

Section 37.130 RSMo, provides that the demographic unit in the Office of Administration " shall provide requested assistance in all reapportionment matters." The federal decennial census began on April 1, 2010. The state of Missouri needs to prepare census geographic and election databases that will be used for reapportionment efforts following the census. This budget request ensures that the Office of Administration makes necessary preparations for reapportionment activities by the bipartisan commissions in 2011.

2. CORE DESCRIPTION

To ensure that Federal Recovery Act funds sub-awarded to other entities are spending the stimulus money as they should, the state contracts for services to audit the use of Recovery Act funds by those sub-awardees and their vendors and to issue audit reports that:

- Summarize findings on overall compliance with applicable grant and reporting guidelines
- Summarize assessment of sub-recipient and vendor performance
- Document and summarize any other compliance issues (e.g., instances of likely non-compliance, sub-par performance, waste, fraud, inefficiency, or ineffectiveness)
- Recommend corrective measures (e.g., better project management, service contractors, tracking mechanism, or grants management reporting)

This was a one-time project and the appropriation has been eliminated for FY 2012.

2. CORE DESCRIPTION									
In Fiscal Year 2007, the State's appropriations for certain information technology resources were consolidated under the Office of Administration. These resources are under the direct control of the state's Chief Information Officer, resulting in a better, more coordinated use of state resources. This decision item contains the operating funds for each of the division's sections including Infrastructure, Operations, and Administration. In addition, this section includes funding for information technology services provided to the 14 departments involved in the consolidation. The consolidated Information Technology Services Division (ITSD) continued with existing programs/ functions and also restructured in order to manage and implement new IT Consolidation initiatives. These IT Consolidation initiatives include network consolidation, Email and server consolidation efforts, content management, and enabling MODOT fiber to help provide new telecommunications infrastructure including Voice over Internet Protocol (VOIP). The division continues to monitor agency IT budgets and to shift IT personnel in order to provide efficient and reliable service, and will leverage consolidated IT budgets in order to receive better pricing on equipment purchases and software pricing. These projects are multi - year projects.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 30615	DEPARTMENT: Office of Administration
BUDGET UNIT NAME: ITSD Consolidation	DIVISION: Information Technology Services Division

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

It is requested that 25% for General Revenue and 100% all other funding sources be designated as Flexible PS/EE. This flexibility is requested to help manage the IT consolidation for all participating departments. ITSD services are funded from 128 appropriations ranging from \$1 to over \$54 million. Changing needs of departments served by ITSD require that funding be flex so that proper spending from the proper sources are maintained. It is critical to the Division to retain key technical staff that continue to optimize the IT systems and to maintain technical support so that EE operating costs are contained and managed. In addition, certain software or equipment, or contracted services may be needed that can be funded from salary savings. This flexibility allows ITSD to provide services in the most efficient and reliable manner.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	IT Consolidation
Program is found in the following core budget(s): Information Technology Services Division Consolidation	

1. What does this program do?

In FY06 the management of State Information Technology resources were consolidated under the Office of Administration. In FY06, some Information Technology (IT) assets were identified and separate IT appropriations created within each department with the exception of Revenue, MoDOT, Conservation, Highway Patrol, Judiciary, Elected Officials, General Assembly, and various boards and commissions. The IT FY06 consolidation appropriation in each department primarily consisted of Computer Equipment (subclass 480) and some of the departmental IT organization appropriation data. In FY07, the scope of the IT consolidation was expanded to include the Department of Revenue and to include other IT expenditures. IT appropriations from FY06, as well as additional IT expenditures were moved to OA/ITSD in FY07. The objectives of IT consolidation are many, but all relate to efficiently run, reliable, and available IT services.

This program provides IT services to the following departments:

- | | | | |
|----------------------------|---|--------------------------------|------------------------------------|
| - Agriculture | - Corrections | - Economic Development | - Elementary & Secondary Education |
| - Health & Senior Services | - Higher Education | - Labor & Industrial Relations | - Mental Health |
| - Natural Resources | - Public Safety | - Revenue | - Social Services |
| - Office of Administration | - Insurance, Financial Institutions and Professional Registration | | |

Services provided by the division include development and maintenance of applications on the web, mainframe, and other platforms; data management and database support; business continuity planning, cyber security support; the operation of a centralized computer facility used by state agencies and elected officials; email services; desktop support including help desk services; and support of the state's telecommunications network.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Statute 37.005 provides for the Commissioner of Administration to provide data processing services to agencies.

3. Are there federal matching requirements? If yes, please explain.

Certain federal grants require a percentage of matching funds.

4. Is this a federally mandated program? If yes, please explain.

No

PROGRAM DESCRIPTION

Program Name	State Data Center (SDC)
Program is found in the following core budget(s): ITSD Consolidation Operating Core	

1. What does this program do?

The SDC was initially established in 1977 by consolidating the Department of Revenue and the Office of Administration computer centers. As part of the COMAP initiatives, the computer centers from the Highway Patrol, Social Services, and DOLIR were consolidated into the SDC. Savings are realized by the State through consolidating technical and operations personnel to maintain 24 hour services, as well as reducing hardware and software costs by sharing these capital expenditures. The SDC now represents the State's only 24 hour by 7 day a week mainframe data center. The SDC provides a number of mission-critical services to agencies, including CPU processing and storage for applications, such as MULES for the Highway Patrol, SAM II for the Office of Administration, MACSS and FAMIS for Social Services, and various tax systems for the Department of Revenue.

The SDC also houses the Internet access point for all state agencies and runs a firewall and DMZ complex to protect the state network from cyber attacks. The core network, which allows all state agencies to exchange email and data, is also the responsibility of this unit.

Agencies are billed by the Information Technology Services Division at rates developed through a Cost Allocation Plan, based upon agency usage of the services. The services are billed to agencies and then collected into the OA Revolving Fund. Payments for the vendor services and equipment are then paid from the same fund.

The FY11 Cost Allocation Plan for the SDC has 92.89 FTEs budgeted with a total operating budget of \$24,407,186 including fringe benefits of \$1,975,391 and transfers of \$10,750.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Statute 37.005 authorizes the Commissioner of Administration to provide data processing services to agencies, the authority for billing, along with the creation of the OA Revolving Fund.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

The prior year amounts include Fringe Benefit and Other Transfers from the Revolving Fund. The FY 2011 Planned Expenditures is the FY 2011 Cost Allocation Plan expenditure amount including transfers for Fringes and Other Transfers. The actual expense will depend upon the rate of agency utilization in FY 2011. Historically, expenditures have been less than projected in prior years.

6. What are the sources of the "Other " funds?

OA Revolving Administrative Trust Fund. The operations of the State Data Center are appropriated from this fund.

7a. Provide an effectiveness measure.

Various SDC billing rates are used to gauge the cost effectiveness of the SDC program. A goal of having billing rates to agencies equal to or lower than the previous year is targeted annually.

A cumulative comparison of the rates yields the following data :

SDC Category of Service	SDC FY11 Rate	FY10 Rates	% Change
CPU Service Unit	\$0.00924	\$0.00955	-3%
CICS (on-line) Transaction Cost	\$0.00073	\$0.00088	-17%
DASD (Storage) Cost	\$0.08961	\$0.13896	-36%
DB2 (Data Base) Cost	\$0.00177	\$0.00171	4%
Laser Print	\$0.03153	\$0.04356	-28%

The SDC strives to keep the rates equal to or lower than the previous year.

7b. Provide an efficiency measure.

The SDC has been able to reduce the Net Billing to agencies per MIP by over 65% since FY00. Net Billings is what was billed to agencies after all credits in a fiscal year. MIPS (Millions of Instructions Per Second) are an industry standard to measure computing power on mainframe computers and much of our software license costs are based upon our MIPS capacity.

2. CORE DESCRIPTION

This core request pays the State's communications bills. All costs are Revolving Administrative Trust Fund (RATF), and the amount requested is based upon historical actual costs and projected utilization of the State network. Cellular phones and internet services were paid in this program beginning in FY 2009. The expenses incurred are primarily for Budget Class 760 – Rebillable Expenses, which are paid to various telecommunication vendors who provide services for the network. These expenses are then reimbursed by agency billings through the RATF. An estimated (E) amount is needed since agency utilization of the telecommunications network will vary. Detailed costs are provided in the annual Telecommunication Cost Allocation Plan.

The Communications Core Request enables the Division to pay for Telecommunications services incurred by state agencies. Through this core request, the Division will continue to provide quality telephone and data network services to state agencies. By being able to acquire service from vendors at a quantity discounted rate, the division is able to provide excellent services at a reduced rate to state agencies. Agencies are then billed for their usage and the Revolving Administrative Trust Fund is reimbursed. Telecommunication services provided through this request are critical to the day-to-day operations of all state agencies. Not funding this decision item would not allow the State to pay its phone and data line bills. State phone line rates provided through this funding are lower than what an individual business line would cost an agency if an agency procured phone service on its own.

PROGRAM DESCRIPTION

Department Office of Administration

Program Name Telecommunications Services

PROGRAM IS FOUND IN THE FOLLOWING CORE BUDGETS: Information Technology Services Division Telecommunications

1. What does this program do? Provide Telecommunication Services to State Agencies

Telecommunications services are provided to all state agencies, and some of the colleges and universities. Services include local phone service, long distance, data circuits, voice mail, dial-up Internet service, toll free (800) lines, wireless and other telecommunication services. Services are acquired from Telecommunication vendors through competitive bidding at quantity discounted rates. By centralization of this bidding process, the State is able to acquire services at reduced rates that would not otherwise be available to individual state agencies. Agencies are then billed by the Information Technology Services Division at rates developed annually through a Cost Allocation Plan. Agency payments are collected into the OA Revolving Administrative Trust Fund. Payments for the vendor provided services are then paid from the same fund in a consolidated manner for all state agencies. The program exists to provide quality telephone and data network services at reduced rates. Rates are lower than what agencies could obtain individually. In addition, charges are audited to determine that the correct rates are being charged by the providers. The FY11 Telecommunications Cost Allocation Plan has 52 FTEs budgeted with a total operating budget of \$30,514,883 (includes fringe benefits of \$611,742).

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Authority for operating the Telecommunications section, and the related Revolving Fund billing and administration is in Chapter 37 of the State statutes.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

The prior year amounts include Fringe Benefit and Other Transfers from the Revolving Fund. The FY 2011 Planned Expenditures is the FY11 Cost Allocation Plan expenditure amount for expense and equipment. The actual expense will depend upon the rate of agency utilization in FY11. Historically, expenditures have been less than projected in prior years.

6. What are the sources of the "Other " funds?

OA Revolving Administrative Trust Fund. The operations of the Telecommunications program are appropriated from this fund.

7a. Provide an effectiveness measure.

Various Telecom billing rates are used to gauge the **cost effectiveness** of the program. A goal of having billing rates to agencies equal to or lower than the year prior is targeted annually. Variances to this goal may be the result of unusual fluctuation in usage or the pricing in a category in a given year. Since Telecommunications bills agencies for its services, the rate structure is a tangible measure of cost effectiveness, and efforts are made continually to reduce the cost per unit cost.

Cost Category	FY02 Rate	FY09 Rates	FY10 Rate	FY11 Rate	% Change Since FY02
Centrex or ABC Access (Local Phone Service in JC)	\$17.33	\$16.36	\$16.36	\$17.26	-0.4%
Long Distance Rate	\$0.0651	\$0.0569	\$0.0569	\$0.0690	6%
Plexar Access (Local Business Line in St. Louis or KC)	\$13.68	\$12.13	\$12.13	\$13.07	-4%
Voice Mail	\$4.00	\$3.25	\$3.50	\$2.00	-50%

Projected rates for FY12 would be similar to FY11. That is a challenging goal since costs from providers are leveling and starting to increase again. The billing rates to agencies help validate and measure the cost effectiveness of the Telecommunications program. The State saves significant dollars by leveraging statewide volumes and centralizing the procurement and administration of these services.

7b. Provide an efficiency measure.

A survey was done in August, 2008, which compared the State telecommunications billing rate to what the normal rate for a business might be. These are the types of rates agencies of the State might pay if they attempted to contract individually with Telecommunication vendors.

Comparison of Rates Billed to Agencies in FY08 to what agencies would have to pay at Regular Business Rates.

Type of Services	State Rate *	Regular Business Rate
Local Business Line in J.C.	\$16.90	\$37.06
Local Business Line in K.C.	\$12.25	\$39.60
Local Business Line in St. Louis	\$12.25	\$42.72
Local Business Line in Springfield	\$12.25	\$37.83

* The State's billing rates include features such as Call Forwarding, 3 party calls, transfer of calls.

The Regular Business rate does not include these features, which would be a significant addition

Other Efficiency Notes (measures) regarding the Telecommunications Program that are difficult to Quantify

A. Savings to Agencies Paying 1 Consolidated Telecommunications Invoice

Agencies can receive 1 consolidated invoice and do not have to pay but 1 monthly amount to ITSD as opposed to an invoice for each type of service to multiple vendors. Statewide, that is a considerable savings in invoice processing for state agencies since several vendors provide services to state agencies and there are over 800 state entities that receive billings from ITSD each month. Because of our new billing system, the number of invoices per month was reduced from 1,600 to 800, also saving agency staff time.

B. State Operator Services

The State Operator services are funded through this program. State Operators process hundreds of information calls from the public and state employees every day providing a "live" answering service to many citizens needing help in order to find answers to their questions. The operators also establish conference calls for state agencies and legislators saving travel expense and employee time.

7c. Provide the number of clients/individuals served, if applicable.

All State agencies are served by the Telecommunications program. On a regular monthly basis, nearly 800 monthly Telecom billings are distributed to State entities. The 800 monthly billings incorporate about 50,000 lines being billed each month. Most State employees have telephone lines or use data circuits serviced by this program.

7d. Provide a customer satisfaction measure, if available.

The SETAC (State Executive Telecommunication Advisory Committee) committee works with OA/ITSD on Telecommunication policies, the review of the Cost Allocation Plan and bids for services. The COMCOR committee, comprised of agency communication coordinators, provides input on services provided, vendor issues and for communication of Telecommunication procedures and policies.

2. CORE DESCRIPTION

The Division of Personnel assists all branches of state government by providing an effective and efficient statewide human resource management function and guidance in several areas. Along with the Division of Personnel, the Personnel Advisory Board is responsible for the operation of the Missouri Merit System, the UCP System and other HR management functions established by Chapter 36, RSMo. The Director of the Division of Personnel and other division employees act as staff to the Board in its oversight and policy making responsibilities. The three major programs of the Division are as follows:

- The Employee Services Section develops and administers position classifications for agencies covered by the Uniform Classification and Pay (UCP) System; ensures employees are assigned to appropriate job classes and that new job classes are assigned to the appropriate pay range; reviews applications for employment within the Merit System; and develops, updates and administers Merit System examinations.
- The Pay, Leave and Reporting Section provides information on the UCP System pay plan; interprets policies on pay, leave and hours of work; provides assistance with the SAM II HR/Payroll System; maintains lists (registers) of people from whom agencies can select for Merit System jobs; ensures personnel transactions are in compliance with Chapter 36, RSMo; coordinates labor relations activities in individual state agencies including participation in negotiations with employee-elected unions and approval of agreements relating to uniform wages, benefits and those aspects of employment that have a fiscal impact on the State; and administers the Productivity, Excellence and Results for Missouri (PERforM) State Employee Online Appraisal System.
- The Center for Management and Professional Development develops and delivers management and supervisory training programs, as well as administers statewide recognition programs. This section also coordinates the WeSave Employee Discount Program.

PROGRAM DESCRIPTION

Department Office of Administration
Program Name Employee Services
Program is found in the following core budget(s): Personnel Operating

1. What does this program do?

The Employee Services Section has two main responsibilities, administering job classification activities for agencies in the Uniform Classification & Pay (UCP) System, and the employment application process for positions with Missouri Merit System agencies. Staff of the Employee Services Section develop and maintain job classifications and evaluate new and existing positions in support of the UCP System. Classification determinations strive to assure: that jobs are appropriately classified and compensated within and among UCP agencies; equal pay for equal work; and consistent application of class concepts among UCP agencies. Staff and agencies work together to identify new or evolving positions and classes; establish ways to evaluate positions; and identify classifications which can be established through streamlined procedures. The Merit System application process continues its transition from an analyst-based, paper application process to one which allows applicants to complete the process on-line, including the completion of ratings of education and experience and any necessary examination scheduling. The Electronic Application System (EASe) provides greater applicant convenience and reduced timeframes, thereby providing faster response for both agencies and applicants. A goal is to place most, if not all, job classes on EASe. Additionally, we partner with agencies to manage the overall recruitment for merit system classes and assess opportunities to utilize additional on-line recruitment services. The section also administers and provides consultation to agencies on the MAIRS applicant tracking system, the EASe on-line application system and the PERforM performance appraisal system.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 36, RSMo - State Personnel Law

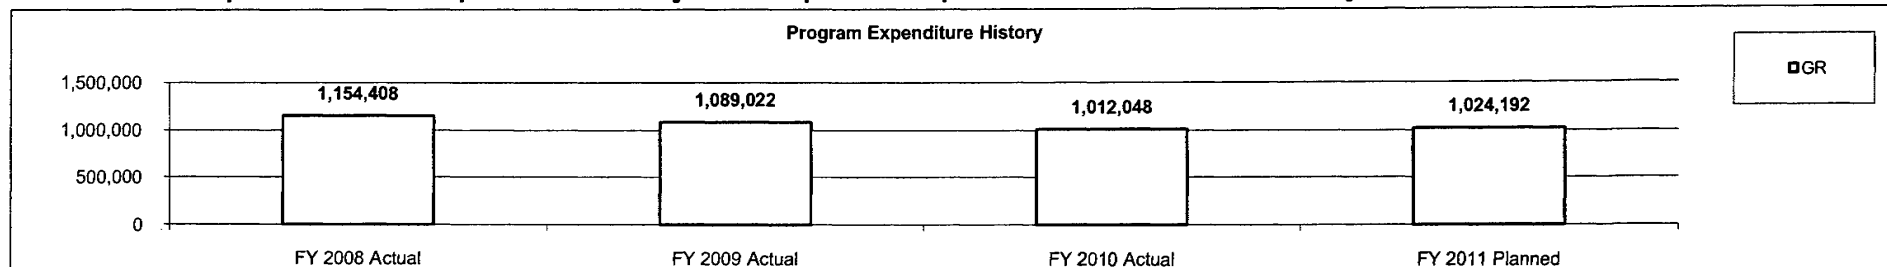

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

7b. Provide an efficiency measure.

*In FY 2006 (May 2005) the Division of Personnel implemented EASe (Electronic Application System) which caused a downward trend in postage costs. Most correspondence with applicants is now accomplished through email. The implementation of this system was very timely in that the Division's EE budget was cut in FY 2006 by almost \$75,000 requiring a severe reduction in spending.

7c. Provide the number of clients/individuals served, if applicable.

7d. Provide a customer satisfaction measure, if available.

The Division of Personnel transitioned to an applicant-based, self-certifying Electronic Application System (EASe) to provide greater applicant convenience and reduce the length of time to get applicant names added to the registers, thus providing faster response for both agencies and applicants. As a result of this change, the Division has assumed a different role of assisting appointing authorities in obtaining a qualified and effective workforce by auditing employment registers and/or certificates upon request. This measurement will reflect the number of audits, the resulting determinations, and their impact on individual applicants and employment registers.

PROGRAM DESCRIPTION

Department Office of Administration
Program Name Pay, Leave and Reporting Section
Program is found in the following core budget(s): Personnel Operating

1. What does this program do?

Staff maintains registers of qualified applicants and certifies names of applicants to merit system agencies. Certificates returned to Personnel designating an appointment are audited for accuracy and matched with the ensuing appointment in the payroll system to ensure compliance with statutes and the regulations. Staff audit and approve personnel transactions submitted by Uniform Classification and Pay (UCP) System agencies through the SAM II HR/Payroll system. The timely approval of transactions is very important as the pay of employees frequently is affected. This section administers the regulations governing pay, leave, hours of work, overtime, certification, removal from registers, transfers, political activity, conflicting employment, and layoff. Staff helps maintain the UCP System pay plan which includes drafting recommendations from the Director of Personnel to the Personnel Advisory Board for the upcoming budget cycle and associated fiscal year. This section maintains the HR-related tables in the SAM II HR/Payroll system that have been assigned to the Division of Personnel. This section provides a central labor relations function for the state which coordinates labor relations activities including negotiations as required by Chapter 36. In addition, section staff have also taken on the "corporate administrator" and liaison role to state agencies for the federal E-verify system for electronically checking the work eligibility of new state employees.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 36, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Although Pay, Leave and Reporting functions are not mandated by Federal law, section staff provide advice and consultation in areas such as Federal overtime, minimum wage, FMLA, Military Leave, etc.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

7a. Provide an effectiveness measure.

A survey of several state departments was recently performed to show how they characterized the effectiveness of the current human resources structure with regard to the following HR functions and services: Transaction Processing; Recruitment; Labor Relations; FMLA; Employee Investigations; Employee Relations; Classification and Compensation Adjustments.

7b. Provide an efficiency measure.

The Division of Personnel collects and analyzes data in order to prepare the annual pay plan recommendations. We participate in surveys with other states in order to collect salary data on a variety of job classifications that aren't likely to be found in the private sector, such as Corrections Officers. While that is helpful information to have, our real competition is the private sector companies in the state of Missouri. For confidentiality, competitive and legal reasons, most private companies will not release their salary data, therefore we pay a third party in order to obtain that data. Previously, we have paid approximately \$800 dollars to obtain Missouri salary survey information from a private company. Recently that company changed their methodology and the amount of matches we receive back has decreased significantly. We researched other companies that offer salary survey information. Most are quite expensive and well beyond our budget. However, we discovered one company that is well established and respected in the field and which offers several efficiencies. First, we save time by not needing to participate in 2 surveys which take a couple of weeks to complete. Second, the information is updated quarterly rather than annually. Third, we can download reports anytime throughout the year rather than just receiving one report. Fourth, we can obtain data regionally, statewide, or by 3 of the larger cities.

7c. Provide the number of clients/individuals served, if applicable.

The number of clients served by the section are numerous. For example, the Employee Relations manager deals with the eight unions (eleven bargaining units) representing state employees. The SAM II HR/Payroll staff provide assistance to the agencies, while maintaining reference tables and providing some statewide reporting from the SAM II HR/Payroll Data Warehouse. The Transaction Audit Unit provides assistance to human resources staff in 12 state agencies (representing about 39,860 employees) on the SAM II system, Chapter 36 and the related regulations. In addition, staff approved 46,283 personnel related transactions in FY 2010. The Certification Unit works with the 9 merit system agencies representing about 33,119 merit system employees and thousands of job applicants in maintaining their status on various registers. During FY10, 3,880 certificates were generated. These certificates included the names of 158,083 applicants. Staff also administer the electronic application system (EASe) and applicant tracking system (MAIRS). Pay Administration supports the 12 Uniform Classification and Pay Agencies covering about 35,851 classified employees. The section also provides assistance to all agencies on the federal Fair Labor Standards Act, hours of work, and the leave rules, and other human resources-related areas.

Program is found in the following core budget(s): Personnel Operating

1. What does this program do?

Chapter 36 prescribes that the Division of Personnel will develop, initiate and implement a central training program for executive, managerial and supervisory development in Missouri state government. Staff of the Center for Management and Professional Development (CMPD) develops and delivers management and supervisory training programs according to guidelines established by the Management Training Rule (1 CSR 20-6). Workshops are offered to managers and supervisors using best practice leadership development strategies from training partners such as FranklinCovey, the Center for Leadership Studies, VitalSmarts, Achieve Global, Development Dimensions International (DDI), the University of Missouri, other local colleges and Division staff. In addition, the Division sponsors state membership to the Institute for Management Studies (IMS). IMS is an international not-for-profit educational and professional development organization offering specialized training programs each month in Kansas City and St. Louis conducted by leading practitioners, authors and authorities in the area of management. Staff of the CMPD also administers statewide recognition programs including State Employee Recognition Week, State Employee of the Month, the Missouri Relies on Everyone (MORE) State Employee Suggestion System and the Governor's Award for Quality and Productivity. CMPD also coordinates the WeSave Employee Discount Program.

7a. Provide an effectiveness measure.

Each year, the Division of Personnel requests that state agencies provide information about the development of their managers and supervisors to include in the Division's annual report. The information included in the FY09 annual report reflects data received from Executive Branch agencies that responded to our request. The numbers indicated that an average of 84% of managers and supervisors were compliant with the Management Training Rule in FY09.

7b. Provide an efficiency measure.

During FY10, the Division of Personnel provided 123 training programs. DOP training programs for state managers, supervisors and executives are provided at a cost per hour of approximately \$23.75 per participant (based upon a cost of \$95.00 for a typical 4-hour workshop). The national average cost per hour per participant for similar training is \$44.00 (Source: ASTD's 2009 State of the Industry Report).

7c. Provide the number of clients/individuals served, if applicable.

The Center for Management and Professional Development provides training for all state agencies who wish to take advantage of course offerings. In FY 2010 1,414 state supervisors, managers and executives enrolled in at least one of the 123 workshops offered.

7d. Provide a customer satisfaction measure, if available.

One measure of customer satisfaction is feedback received from training classes. Based upon a random sample of the participant training evaluations in FY 2010, approximately 95% of attendees were satisfied with the overall training experience, and about the same percent would recommend this training to others.

2. CORE DESCRIPTION

This core requirement is for funding to provide surplus property services. DPMM is responsible for operating the federal surplus property program as provided in Chapter 37, RSMo. The State Agency for Surplus Property (SASP) is responsible for the administration of the Federal Surplus Property Program. The SASP receives federal surplus property (at no cost to the State other than transportation costs), but the Federal government does require the State to continue tracking the original acquisition cost of the property. The SASP transfers the property to eligible entities (state agencies, cities, counties, schools, not-for-profit health and educational activities, providers of assistance to the homeless & needy, SBA 8(a) program participants, and Service Educational Activities). All expenses incurred by SASP for operating the Federal surplus program are recovered through service charges applied to property acquired by eligible entities.

The SASP receives federal surplus property (at no cost to the State other than transportation costs), but the Federal government does require the State to continue tracking the original acquisition cost of the property. The SASP transfers the property to eligible entities (state agencies, cities, counties, schools, not-for-profit health and educational activities, providers of assistance to the homeless and needy, SBA 8(a) program participants, and Service Educational Activities). All expenses incurred by SASP for operating the Federal Surplus program are recovered through service charges applied to property acquired by eligible entities.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 37, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other" funds?

Federal Surplus Property Fund (0407)

2. CORE DESCRIPTION

Since the merger of Facilities Management and Design and Construction by the Governor (Executive Order 05-08) we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying and reducing deferred maintenance, bringing to bear new technology to manage our assets, and using a full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio, we will reduce operating costs. Well maintained facilities are cheaper to operate.

DFMDC provides professional asset management services to assist state entities in meeting their facility needs for the benefit of the public. These services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan and Energy Management. Starting in FY08, institutional consolidations of fuel & utility dollars and maintenance and repair dollars were transferred to DFMDC. Additional institutional consolidation will be included in the FY12 budget request.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 31041	DEPARTMENT: Office of Administration
BUDGET UNIT NAME: FMDC Asset Management	DIVISION: Facilities Management, Design and Construction

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$0.00	\$0.00	25% flexibility between PS & EE

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
N/A	Flexibility may be used to redirect PS/E&E to efficiently conduct asset management needs and cost.

PROGRAM DESCRIPTION

Department Office of Administration

Program Name Facilities Management, Design and Construction

Program is found in the following core budget(s): Asset Management

1. What does this program do?

Since the merger of Facilities Management and Design and Construction by the Governor (Executive Order 05-08) we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying the reduction of deferred maintenance, bringing to bear new technology to manage our assets and using full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio, we will reduce operating costs. Well-maintained facilities are cheaper to operate.

DFMDC provides professional asset management services to assist state entities in meeting their facility needs for the benefit of the public. These services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan, and Energy Management. Beginning in FY08, institutional consolidation of fuel & utility and maintenance and repair dollars were transferred to FMDC. Additional institutional consolidation will be included in the FY12 budget request.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Missouri Revised Statutes, Chapter 8, Section 8.120, Division of Design and Construction Created - Duties

Missouri Revised Statutes, Chapter 8, Section 8.110, Division of Facilities Management Created - Duties

Missouri Revised Statutes, Chapter 34.030, Leasing

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Program Expenditure History

6. What are the sources of the "Other" funds?

State Facility Maintenance and Operations Fund (0501)

This additional consolidation would include maintenance for Social Services-Youth Services, Elementary & Secondary Education, Public Safety-Highway Patrol, and the Department of Corrections. This authority will allow the Division of Facilities Management, Design and Construction to provide facility management support.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This entire decision item is an increase in appropriation authority only, in HB5, from where FMDC provides the operational maintenance from the "operational rent" charged to HB13. It does not represent new dollars.

2. CORE DESCRIPTION

This appropriation provides authority to spend gifts, bequests, grants, and donated funds in support of the work of the Missouri State Capitol Commission for the restoration and preservation of the Capitol Building, the promotion of the historical significance of the Capitol Building, and the improved accessibility of the Capitol Building. Established in SB 480 (2009), the legislation also established the State Capitol Commission Fund. Any moneys received by the Commission from sources other than appropriation, including from private sources, gifts, donations and grants, are to be credited to that fund and appropriated by the General Assembly. The Commission exercises general supervision and administration of the fund. Appropriation authority is required to allow for the expenditure of any funds that may be received.

An estimated appropriation is requested to ensure the ability to expend all funds should receipts exceed the stated authority amount.

2. CORE DESCRIPTION

This core represents revolving fund authority that allows the Division of Facilities Management, Design and Construction to make up-front payments for expenses associated with facility management, purchases of materials for facility modifications, tenant services that support agency programs, replacement, and repair costs, and other support services at state facilities when recovery is obtained from a third party. DFMD C bills agencies for such costs via the interagency billing process.

This pass through appropriation gives DFMD C the ability to effectively manage facilities, modification projects and other services by establishing a mechanism to make up-front purchases for materials without reducing appropriation authority for facility operating purposes. The Division also makes up-front payments for other extraordinary services agencies may require that would otherwise place an unreasonable burden on the regular operating budget of the facility.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 31113	DEPARTMENT: Office of Administration
BUDGET UNIT NAME: Operating	DIVISION: General Services

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Division of General Services requests a continuation of a 25% flexibility for both the personal services and expense and equipment appropriations within its operating core. Successive budget reductions over the past several years has left the agency with limited ability to respond to changing needs. Flexibility will allow the division to react to unforeseen issues that could impact the ability to fulfill its operational responsibilities.

2. CORE DESCRIPTION

Core appropriation authority to make payments from the Property Preservation Fund - a self-funded alternative to the purchase of property insurance for bonded state owned or leased facilities. The State of Missouri is required under bond covenants to purchase property insurance for bonded state buildings to protect the bondholders should the assets backing the bonds, the covered buildings, be damaged or destroyed. Prior to the passage of legislation creating the Property Preservation Fund, over 92.5% of the value of all state property was uninsured. The remaining 7.5% was covered by property insurance. The fund was created to provide coverage to named property for purposes of repairing or replacing state-owned or leased property damaged from natural or man-made events. Only if a loss to a covered building occurs would a payment be made. The fund is estimated to save the state over \$1 million annually in insurance costs.

This appropriation will be used to repair or replace certain state-owned or leased property damaged from natural or man-made events. Due to the uncertainty of losses, actual expenditures from the fund may fluctuate significantly from year to year. In any given year there is the risk that a bonded building may be damaged and the state would be liable for the cost to repair or replace the damaged building. Over the past 23 years, there have been only two claims totaling \$281,000 for losses to covered bonded buildings. This appropriation is requested on an estimated basis.

2. CORE DESCRIPTION

Appropriation authority to purchase required raw materials used in the production of final goods and services to state agencies. State Printing, Vehicle Maintenance, Fleet Management, and Central Mail Services use this revolving fund appropriation to purchase inventory (e.g., paper, parts, fuel, and postage) and obtain outside services to provide products and services to state agencies. This appropriation is also used to purchase goods or services that are rebilled to state agencies, including the cost of vehicles and supporting expenses for the consolidated Jefferson City carpool.

The amount of paper, vehicle parts, postage, fuel, services, or supplies acquired is directly dependent on the level of demand by agencies. Funds appropriated for rebillable expenses is used for the purchase of raw materials or goods placed in inventory for later conversion or sale and for services obtained that are necessary to produce final goods or services. Equipment, maintenance, and rebillable coded expenditures required to produce the final goods or services are paid from this appropriation.

This appropriation will also be used to replace property, damaged through the fault of a third party, to the extent recovery is made from the third party or their insurer. This allows state agencies to replace state owned property that is destroyed through the fault of a third party. Also, under Section 37.452, RSMo, agencies are authorized to use credits from the sale of surplus vehicles toward the purchase of new vehicles through this appropriation.

PROGRAM DESCRIPTION

Department: Office of Administration

Program Name: Administrative Hearing Commission

Program is found in the following core budget(s): Administrative Hearing Commission

1. What does this program do?

The Administrative Hearing Commission (AHC) provides business entities and private citizens with an impartial review of decisions made by state agencies. The AHC hears and decides cases involving millions of dollars in tax and Medicaid reimbursement revenues; serious threats to public safety such as unsafe nursing homes, enforcement of the liquor control laws, and peace officers' certificates; and discipline of professional licenses. New statutes add to our jurisdiction almost every year. For example, in the past several years, statutes have transferred jurisdiction over motor carrier and railroad safety matters, surety agent licenses, and motor vehicle dealer licenses to the AHC. Additionally, the AHC serves as hearing officer through a memorandum of understanding with certain other state agencies whose cases do not fall into our statutory jurisdiction, most notably the Missouri Commission on Human Rights, and the Missouri Consolidated Health Care Plan. The Department of Natural Resources was previously included in that group, however HB 824 transferred the authority to hear appeals to the Hazardous Waste Management Commission, Land Reclamation Commission, Safe Drinking Water Commission, Air Conservation Commission, and Clean Water Commission to the AHC beginning August 28, 2005. Beginning August 28, 2010, the AHC will have jurisdiction over personnel cases formally adjudicated by the Personnel Advisory Board including, for example, discipline stemming from termination, demotion and/or whistle blowing.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 621, RSMo creates the AHC and sets forth its procedures and jurisdiction.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

PROGRAM DESCRIPTION

Department: Office of Administration

Program Name: Administrative Hearing Commission

Program is found in the following core budget(s): Administrative Hearing Commission

6. What are the sources of the "Other " funds?

N/A

7a. Provide an effectiveness measure.

1. Percentage of cases disposed in desired timeframes.

Goal: 90% within 18 months
 98% within 24 months

Case Processing Time Standards:

Age of Case at Disposition

	Goal	Actual Performance			Projected Performance		
		FY 2008	FY 2009	FY 2010	FY 2011	FY 2012	FY 2013
Within 18 Months*	90%	96.6%	96.1%	96.2%	95.8%	95.8%	95.8%
Within 24 Months*	98%	98.1%	98.1%	97.9%	98.0%	98.0%	98.0%

* The times refer to the time between the date a case is filed and the date it is finally disposed at the AHC.

PROGRAM DESCRIPTION

Department: Office of Administration

Program Name: Administrative Hearing Commission

Program is found in the following core budget(s): Administrative Hearing Commission

7b.

Provide an efficiency measure.

Ratio of cases closed to cases opened.

*Average figure is more accurate measure than any one year as it corrects for unusual patterns that may occur at the beginning or end of a fiscal year.

**Projections will not be accurate because we do not control the number of cases filed. However, in recent years about 2000 cases per year have been filed, and our goal is to close cases at the same rate, on average, as they are opened. The AHC has been given jurisdiction, effective August 28, 2010, over appeals from employment actions against state merit employees. Any merit employee who has been dismissed, involuntarily demoted for cause, or suspended for more than five working days has the right to appeal this decision to the AHC. The appeal must set forth the employee's reasons for claiming that the action was for political, religious or racial reasons, or not for the good of the service. In addition, jurisdiction over employee "whistle blower" cases will be transferred to the AHC on the same date.

PROGRAM DESCRIPTION

Department: Office of Administration

Program Name: Administrative Hearing Commission

Program is found in the following core budget(s): Administrative Hearing Commission

7c.

Provide the number of clients/individuals served, if applicable.

Actual numbers are 2266, FY 08; 1837, FY09 and 2062, FY10. A number of parties, such as some state agencies, have many cases before us each year. In this graph, each party is only counted one time even if that party had multiple cases at the AHC. Projections are made for current Fiscal Year 2011 and future Fiscal Years 2012-2013. The increase in projected client/individuals served in 2011 to 2013 result from the expanded jurisdiction the AHC will have over grievances filed by state employees that formally were adjudicated by the Personnel Advisory Board. Approximately 300 additional cases are expected to be filed at the AHC as a result.

7d.

Provide a customer satisfaction measure, if available.

None is available at this time.

Implementing additional conflict of interest prohibitions in Section 105.456, RSMo., would require the MEC to provide:

- Information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14(4), RSMo. Examples include providing education, developing informational materials, telephone, and email assistance; these materials require legal review prior to issuance/modification to ensure legal correctness.
- Assist public officials and the public in understanding the statutory provisions. The Commission currently receives on average between 5 – 10 phone calls and/or emails daily related to conflict of interest statutory provisions. These calls generally include legal issues which must be responded to by legal counsel.
- Respond to written complaints, conduct investigation, established in Section 105.955, RSMo. Investigative work requires identifying necessary documentation and records to request and/or subpoena, identifying witnesses and interviewing witnesses, reviewing all relevant documentation, performing complex and detailed analysis of data and information and witness interviews, communicating with Commission management and legal staff; reviewing Missouri statutes and constitution; drafting investigative report; presenting report to Commission.
- Perform legal actions related to investigations conducted in addition to conducting legal proceedings before the Commission in the event a violation is found. Conducting legal actions during investigation and hearing stage ensures fairness throughout Commission proceedings. Legal actions include reviewing all complaints received for statutory authority, reviewing case correspondence including legal memoranda and responses to investigators; providing legal oversight for all investigations (complaints and other investigations); this includes communicating with and reviewing all investigative work, work papers, and reports; conducting legal analysis of alleged statutory violations; drafting and issuing all legal documents including subpoenas, affidavits, pleadings, legal petitions for a hearing before the Commission, attorney correspondence, correspondence and communication with/to respondents, joint stipulations, findings of facts and conclusions of law, and Commission orders; preparation of hearing exhibits; interviews of hearing witnesses; preparation for and conducting hearings; oversight and review of appeal pleadings in the event of an appeal.

Providing a list of all contributions made to any candidate or campaign committee for the previous four years by a person's whose name was submitted to the governor for appointment would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements. Examples include providing education, developing informational materials, telephone and email assistance; these materials require legal review prior to issuance/modification to ensure legal correctness.
- Compile the listing of contributions made for the previous four year period by a person whose name was submitted to the governor for appointment. Currently, the data is in paper form and electronic.
- Develop internet/intranet appointee search for contributions
- Respond to written complaints and conduct investigations, established in Section 105.955.14, RSMo., Investigative work requires identifying necessary documentation and records to request and/or subpoena, identifying witnesses and interviewing witnesses, reviewing all relevant documentation, performing complex and detailed analysis of data and information and witness interviews, communicating with Commission management and legal staff; reviewing Missouri statutes and constitution; drafting investigative report; presenting report to Commission.
- Perform legal actions related to investigations conducted in addition to conducting legal proceedings before the Commission in the event a violation is found. Conducting legal actions during the investigation and hearing stage ensures fairness throughout Commission proceedings. Legal actions include reviewing all complaints received for statutory authority, reviewing case correspondence including legal memoranda and responses to investigators; providing legal oversight for all investigations (complaints and other investigations); this includes communicating with and reviewing all investigative work, work papers, and reports; conducting legal analysis of alleged statutory violations; drafting and issuing all legal documents including subpoenas, affidavits, pleadings, legal petitions for a hearing before the Commission, attorney correspondence, correspondence and communication with/to respondents, joint stipulations, findings of facts and conclusions of law, and Commission orders; preparation of hearing exhibits; interviews of hearing witnesses; preparation for and conducting hearings; oversight and review of appeal pleadings in the event of an appeal.
- The Governor currently appoints approximately 442 individuals, with the advice and consent of the Senate. This provision requires a Personal Financial Disclosure statement and listing of campaign finance contributions for each individual who is submitted to the Governor for consideration.

Additional reporting requirement for lobbyist group expenditures requiring a location to be reported would require the following of the MEC:

- Provide information to public officials, lobbyists, and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements. Examples include providing education, developing informational materials, telephone and email assistance; these materials require legal review prior to issuance/modification to ensure legal correctness. Additional inquiries will be received from the public, public officials, and lobbyists relating to the reporting of the location and the requirements. The Commission currently has 1,200 registered lobbyists.
- Provide oversight of the lobbyist monthly expenditure reports (1,200 monthly lobbyists reports – 14,400 annual) to ensure group expenditures disclose the location. This would also require notices to be sent, answering necessary correspondence and communication, tracking the results.
- Investigate written complaints and conduct investigations, established in Section 105.955.14, RSMo. Investigative work requires identifying necessary documentation and records to request and/or subpoena, identifying witnesses and interviewing witnesses, reviewing all relevant documentation, performing complex and detailed analysis of data and information and witness interviews, communicating with Commission management and legal staff; reviewing Missouri statutes and constitution; drafting investigative report; presenting report to Commission.

- Modifications to the definition of lobbyist reporting of group expenditures would require the MEC to provide information to public officials, lobbyists, and the public as specified in the Commission duties in Section 105.491, 105.955.14(4), RSMo., about the new statutory language. Examples include providing education, developing information materials, telephone and email assistance. These materials require legal review prior to issuance/modification to ensure legal correctness. Additional inquiries will be received from the public, public officials, and lobbyists relating to group expenditure reporting and the requirements. The Commission currently has 1,200 registered lobbyists.

Expanding the definition of instances when the MEC can conduct investigations would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements. Assessment of a late filing fee for statement of limited activity reports required by Chapter 130, RSMo., would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements. - Identify late filers; this includes creating and sending out late fee assessments, tracking those individuals, sending out the necessary notices, communicating with the non filer and/or late filer through written correspondence, emails, and/or telephone, tracking the receipt of payments, receipting and depositing payments, and coordinating/conducting any necessary collection efforts.
- The current number of limited activity reports filed with the MEC is 2,500; with average number filed late at 400. The number of notices sent could range from up to three notices to a maximum of six notices. On average, it is anticipated a minimum of three notices would be required, of 1,200 with a maximum of 2,400.

Hearing all late fee appeals for campaign finance, lobbyists, and personal financial disclosure would require the following of the MEC:

- Communicate and correspond with those appealing their late fees through written correspondence, telephone communication, and email communication
- Gathering the paperwork necessary for reviewing the late fee appeal
- Communicating the Commission's determination of the late fee appeal to the person appealing
- Providing legal oversight and review related to the appeal of late fee appeals

Prohibit an individual from forming a new committee or serving as deputy treasurer until the individual has filed all outstanding reports and/or paid all fees assessed by the commission. This provision would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about the new statutory requirements. Examples include providing education, developing informational materials, telephone and email assistance. These materials require legal review prior to issuance/modification to ensure legal correctness.
- Provide oversight in campaign finance committee adherence to the proposed statutory requirements, including reviewing, auditing, and performing cross checks of newly formed committees and/or deputy treasurer, as established in Section 105.955.14 (2), (3), RSMo. The Commission receives approximately 493 new statement of committee organizations each year.
- Investigate written complaints and conduct investigations, as established in Section 105.955.14, RSMo. Investigative work requires identifying necessary documentation and records to request and/or subpoena, identifying witnesses and interviewing witnesses, reviewing all relevant documentation, performing complex and detailed analysis of data and information and witness interviews, communicating with Commission management and legal staff; reviewing Missouri statutes and constitution; drafting investigative report; presenting report to Commission.
- Perform legal actions related to investigations conducted in addition to conducting legal proceedings before the Commission in the event a violation is found. Conducting legal actions during the investigation and hearing stage ensures fairness throughout Commission proceedings. Legal actions include reviewing all complaints received for statutory authority, reviewing case correspondence including legal memoranda and responses to investigators; providing legal oversight for all investigations (complaints and other investigations); this includes communicating with and reviewing all investigative work, work papers, and reports; conducting legal analysis of alleged statutory violations; drafting and issuing all legal documents including subpoenas, affidavits, pleadings, legal petitions for a hearing before the Commission, attorney correspondence, correspondence and communication with/to respondents, joint stipulations, findings of facts and conclusions of law, and Commission orders; preparation of hearing exhibits; interviews of hearing witnesses; preparation for and conducting hearings; oversight and review of appeal

Implementing the statutory requirements regarding contributions between campaign finance committees, would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements. Examples include providing education, developing informational materials, telephone and email assistance. These materials require legal review prior to issuance/modification to ensure legal correctness.
- Provide oversight in campaign finance committee adherence to the transfer of funds, including reviewing, auditing, and performing cross checks, as established in Section 105.955.14 (2), (3), RSMo. Currently about 11,000 campaign finance reports are filed annually with the Commission (quarterly and other disclosure reports) from 2,200 different campaign finance committees.
- Investigate written complaints and conduct investigations, as established in Section 105.955.14, RSMo. Investigative work requires identifying necessary documentation and records to request and/or subpoena, identifying witnesses and interviewing witnesses, reviewing all relevant documentation, performing complex and detailed analysis of data and information and witness interviews, communicating with Commission management and legal staff; reviewing Missouri statutes and constitution; drafting investigative report; presenting report to Commission.
- Perform legal actions related to investigations conducted in addition to conducting legal proceedings before the Commission in the event a violation is found. Conducting legal actions during the investigation and hearing stage ensures fairness throughout Commission proceedings. Legal actions include reviewing all complaints received for statutory authority, reviewing case correspondence including legal memoranda and responses to investigators; providing legal oversight for all investigations (complaints and other investigations). This includes communicating with and reviewing all investigative work, work papers, and reports; conducting legal analysis of alleged statutory violations; drafting and issuing all legal documents including subpoenas, affidavits, pleadings, legal petitions for a hearing before the Commission, attorney correspondence, correspondence and communication with/to respondents, joint stipulations, findings of facts and conclusions of law, and Commission orders; preparation of hearing exhibits; interviews of hearing witnesses; preparation for and conducting hearings; oversight and review of appeal pleadings in the event of an appeal.

Requiring individuals currently holding office as a state representative, senator, governor, lieutenant governor, treasurer, attorney general, secretary of state, or auditor or a candidate of such office to report contributions over \$500 made during the regular legislative session by any contributor to his/her campaign committee within 48 hours of receiving the contribution would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements. Examples include providing education, developing informational materials, telephone and email assistance. These materials require legal review prior to issuance/modification to ensure legal correctness.
- Provide oversight for public officials and campaign finance committee adherence to the approximate 846 contributions required to be reported over \$500, including reviewing, auditing, and performing cross checks, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints and conducting investigations as established in Section 105.955.14, RSMo. Investigative work requires identifying necessary documentation and records to request and/or subpoena, identifying witnesses and interviewing witnesses, reviewing all relevant documentation, performing complex and detailed analysis of data and information and witness interviews, communicating with Commission management and legal staff; reviewing Missouri statutes and constitution; drafting investigative report; presenting report to Commission.

- Assess late fees for the required reports. During the 2010 regular session 846 contributions over the \$500 threshold were received by statewide officeholders and members of the general assembly. Assessment of late fees requires identifying and tracking late or non filers; creating late filer and/or non filer notices; communicating with the late filer and/or non filer through written correspondence, telephone, and email; tracking the receipt of payments; receipting and depositing collection of late fee; preparing those who do not pay the late fee assessment for referral to the Attorney General's office for collection.

- Electronic filing, by all campaign finance committees required to report to the MEC, of all campaign finance reports outlined in Chapter 130 would require the MEC to provide information and assistance to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14(4), RSMo. Examples include providing education, developing informational materials, telephone, and email assistance. These materials require legal review prior to issuance/modification to ensure legal correctness.

The MEC currently provides standard reviews (as required in Section 105.955.14, RSMo.) of those campaign finance filers who are repeatedly delinquent in filing reports, are not filing at all, or do not report contributions reported by other committees. The MEC cannot currently review all committees falling within these criteria. This effectively allows inadequate reporting of the dollars contributed and spent in support of or opposition to candidates or ballot issues. The above positions would provide for:

Conducting initial work necessary to identify these delinquent/nonfilers – Reporting Specialist
 Completing these standard reviews/audits – Investigator II

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

The staff of the Missouri Ethics Commission provides education, oversight and enforcement of Chapter 105 and 130 RSMo.

The staff provides education by developing informational materials, and conducting training sessions. The training sessions are provided through webinars, online tutorials and in-person sessions. The Commission website provides access to the 17 different publications, 10 different tutorials and the ongoing schedule of webinars and in-person training seminars.

The MEC has 4 staff members providing oversight through telephone and e-mail assistance. The average number of phone calls and e-mails received requesting guidance or direction for compiling with the statutes ranges from 50 to 60 per day per staff member and during filing deadlines 80 to 100 per day per staff member.

The enforcement actions are addressed through late filing fee assessment and investigations. Assessment of late fees include creating and sending out late fee assessments, tracking those individuals, sending out the necessary notices, tracking the receipt of payments, and coordinating/conducting any necessary collection efforts. Currently one (1) Reporting Specialist sends out approximately 1,057 nonfiling and late fee assessments annually related to PFD filings and approximately 905 relating to Campaign Finance and Lobbyist. The investigative work requires identifying necessary documentation and records to request and/or subpoena, identifying witnesses and interviewing witnesses, reviewing all relevant documentation, performing complex and detailed analysis of data and information and witness interviews, communicating with Commission management and legal staff; reviewing Missouri statutes and constitution; drafting investigative report; presenting report to Commission. Legal actions occur during the investigative stage which include reviewing all complaints received for statutory authority, reviewing case correspondence including legal memoranda and responses to investigators; providing legal oversight for all investigations (complaints and other investigations); this includes communicating with and reviewing all investigative work, work papers, and reports; conducting legal analysis of alleged statutory violations; drafting and issuing all legal documents including subpoenas, affidavits, pleadings, legal petitions for a hearing before the Commission, attorney correspondence, correspondence and communication with/to respondents, joint stipulations, findings of facts and conclusions of law, and Commission orders; preparation of hearing exhibits; interviews of hearing witnesses; preparation for and conducting hearings; oversight and review of appeal pleadings in the event of an appeal.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In March 2005, the State issued Series A 2005 Refunding Certificates of Participation (COPs) in the amount of \$120,490,000. The proceeds of the COPs were used to refund four (4) series of lease/purchase certificates of participation as follows:

	Principal Refunded
MO Public Facilities Corp Series A 1994 (St. Louis Acute Care Psychiatric Hospital)	\$13,945,000
MO PRC Corp Series A 1995 (St. Louis Psychiatric Rehabilitation Center)	\$13,400,000
NW MO Public Facilities Corp Series B 1995 (Northwest Psychiatric Rehabilitation Center)	\$9,915,000
MO Public Facilities Corp II Series A 1995 (Bonne Terre Prison)	\$87,700,000
	<u>\$124,960,000</u>

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Debt service amounts for these Certificates of Participation (COPs) vary from year to year due to different maturity dates and interest rates of the COPs. The amount required for the FY 12 payments is greater than the FY 11 core as follows:

	Principal Outstanding as of 01/01/11	Final Maturity	Fund	FY 11 Core	FY 12 Request	Difference

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The State has entered into a contract with Motorola to build a statewide interoperable radio communications system. The system will replace the radio communications currently used by state law enforcement agencies such as the highway patrol, and will provide a unified platform that will allow state and local agencies to communicate with each other. The system will also allow state and local agencies to meet the FCC mandate to narrow band all their communications equipment by January 2013. This project is financed through a combination of funding sources including grants and a 7 year lease with Central Bank.

In addition to grant funding, the State expects to draw \$35.5 million from the Statewide Master Lease contract with Central Bank beginning the 1st quarter of fiscal year 2012. Funds will be borrowed for a term of 7 years at approximately 5% interest which will result in approximately \$6,000,000 in annual debt service requirements.

In 2003, the Authority refunded the outstanding bonds with Series A 2003 Refunding Bonds. The State contributes \$10 million annually to the Authority to be used for debt service payments on the bonds. The State is also required to contribute \$2 million annually for maintenance of the facility. Final debt service payment to the Authority will be made on August 1, 2021. RSMo, Chapter 8; RSMo, Sections: 67.638-67.645; 67.650-67.658; 178.892-178.896; and 288.128, 288.310, and 288.330.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

PROGRAM DESCRIPTION

Department Office of Administration
 Program Name Debt Management
 Program is found in the following core budget(s):

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Above costs do not include personal service and expense and equipment cost for support staff.

6. What are the sources of the "Other" funds?

Facilities Maintenance Reserve Fund (0124)

Notes: An "E" is requested for General Revenue Fund.

2. CORE DESCRIPTION

This core request is to provide a funding contingency for new jobs training and job retention certificates' debt service cost in the event of non payment by the issuer. Sections 178.892 to 178.896, RSMo establishes the New Jobs Training Program and Sections 178.760 to 178.764, RSMo establishes the Job Retention Program. Essentially, businesses establishing new jobs in the State or retaining current jobs can enter into an agreement with a community college district to provide training for new employees. The training is funded from the proceeds of certificates issued by the community college district. Debt service on the certificates is payable only from Missouri withholding tax credits of the (first) new employees or (second) existing employees. If the business would sharply decrease or eliminate its operations, funds may not be available to meet debt service costs, therefore an "E" is being requested.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	CMIA and Other Federal Payments
Program is found in the following core budget(s): CMIA and Other Federal Payments	

1. What does this program do?

This program provides for payments to the federal government for items such as interest, refunds, and penalties.

The Federal Cash Management Improvement Act of 1990 and 1992 requires that the State track the draw down of federal funds for programs that exceed the threshold, as calculated using program expenditures. Interest is calculated using the daily equivalent of the annualized 13-week average treasury bill rate (5.02% in FY07, 2.99% in FY08, 0.60% in FY09, and 0.12% in FY10). Interest calculated on program disbursements from July 2009 through June 2010 is due in March of 2011.

The State also prepares a Statewide Cost Allocation Plan in accordance with OMB Circular A-87. This plan is used to allocate central service costs to various federal programs. The federal Department of Health and Human Services reviews the plan for adherence to the Circular. Reimbursement to the federal government may be required for any disallowed cost. In FY 06, \$950,000 was reimbursed to the federal government. This represented their share of money that was swept from the OA Revolving Trust fund to the general revenue fund in FY 05.

This program also covers any IRS penalties that have been assessed.

2. What is the authorization for this program, i.e., federal or state statute, etc.?

Cash Management Improvement Act; OMB Circular A-87, IRS Tax Code

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Yes. (see No. 1 above).

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

Appropriation authority is being requested to distribute a percentage of monies recovered by the State to the audit firm who recovered the funds. The amount to be distributed to the audit recovery firm will be based upon the terms of the contract awarded for the service. If no monies are recovered, the contractor does not receive any payment. Because the amount of the recovery is uncertain, we are requesting an estimated appropriation. We do not have a current contract, but want to hold the appropriation open as a placeholder.

Vendors do not always properly credit state agencies for duplicate payments erroneously made, or for equipment and supplies returned because of defects or other errors in shipping. An audit recovery firm researches contract terms, vendor invoices, and payments made in order to identify the payments owed to the State as a result of billing and payment errors. The firm works with the vendors to recover the funds, and, once the State is paid, the contractor is given a recovery fee.

2. CORE DESCRIPTION

This request provides the mechanism to transfer funds from the Budget Reserve Fund into general revenue or any other state fund for short-term loans pursuant to Section 27(a), Article IV, Constitution of Missouri. This appropriation also allows for transfers from various other funds into general revenue or any other state funds for short-term loans.

2. CORE DESCRIPTION

This request provides the mechanism to transfer funds from general revenue and other funds into the Budget Reserve Fund pursuant to Section 27(a), Article IV, Constitution of Missouri, to pay back any interest on cash operating transfers made from the Budget Reserve Fund. This appropriation also allows for transfers from general revenue or any other state funds to various other funds to pay back any interest on cash operating transfers made from other state funds.

Transfers from the Budget Reserve Fund are deemed "cash operating transfers." An amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the Budget Reserve Fund or other fund prior to May sixteenth of the fiscal year in which the transfer was made. No cash operating transfers out of the Budget Reserve Fund may be made after May 15 of any fiscal year.

Transfers from other state funds into general revenue or other state fund shall only be transferred from May 15 to June 30 in any fiscal year, and an amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the other fund prior to June 30 of the fiscal year in which the transfer was made.

Likewise, if the balance in the budget reserve fund at the close of any fiscal year exceeds seven and one-half percent of the net general revenue collections for the previous fiscal year, that excess amount shall be transferred to the general revenue fund unless such excess balance is as a result of direct appropriations made by the general assembly for the purpose of increasing the balance of the fund; provided, however, that if the balance in the fund at the close of any fiscal year exceeds ten percent of the net general revenue collections for the previous fiscal year, the commissioner of administration shall transfer the excess amount to the general revenue fund notwithstanding any specific appropriations made to the fund.

2. CORE DESCRIPTION

Cost allocation plans are used to recover costs for services provided to others, and are an acceptable accounting practice. For example, the State of Missouri and the Federal Government agree on a Statewide Cost Allocation Plan (SWCAP) to recover overhead costs performed by the State for agencies receiving federal grants. Under this plan, the Central Services Cost Allocation Plan (CSCAP), which uses standard, acceptable methods approved by the federal government for cost allocation plans, the state is recovering the costs of services provided by the Office of Administration, the Department of Revenue, the Governor's office, the Lieutenant Governor's office, the Secretary of State's office, the State Auditor's office, the Attorney General's office, the General Assembly, and the Capitol Police to the various state funds. The plan outlined below establishes two cost allocation pools. Costs are allocated based on how the funds create work for the agencies in the pool.

2. CORE DESCRIPTION, continued

Expenditure Cost Allocation Pool:
 Costs to be allocated include the Office of Administration, the Governor's office, the Lieutenant Governor's office, the Secretary of State's office, the State Auditor's office, the Attorney General's office, the General Assembly, and the Capitol Police. Costs are allocated to funds based on expenditures, which is the basis that they create work – purchases, checks written, etc.

1. Use FY 2010 expenditures less refunds.
2. Subtract costs for Federal and Constitutional Funds.
3. Determine % by fund after exemptions for Federal and Constitutional Funds.
4. Multiply % by fund by the expenditures to be allocated.
5. Exclude Elementary and Secondary Education funds and pick up these costs with General Revenue.
6. Exclude funds that directly support the agency that is being cost allocated and pick up these costs with General Revenue.

Receipt Cost Allocation Plan:
 Costs to be allocated include the Department of Revenue. Costs are allocated to funds based on the receipts into the fund, which is the basis that they create work – deposits, investments, etc.

1. Use FY 2010 receipts less refunds.
2. Subtract costs for Federal and Constitutional Funds.
3. Determine % by fund after exemptions for Federal and Constitutional Funds.
4. Multiply % by fund by the expenditures to be allocated.
5. Exclude Elementary and Secondary Education funds and pick up these costs with General Revenue.
6. Exclude funds that directly support the agency that is being cost allocated and pick up these costs with General Revenue.
